EXPECT INNOVATION

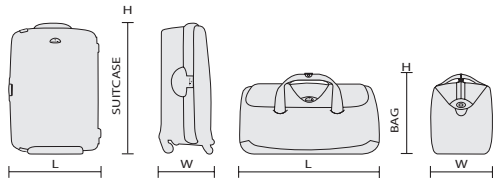

Samsonite

CATALOGUE 2021/2

GENERAL INFO

Measurements

The dimensions shown in the tables are the exterior dimensions (including handles, wheels, bottom glides, side pockets and other external parts).

Measurements of volume, dimensions and weight are carried out in the Samsonite laboratories using procedures whereby tolerances up to 1,5 cm in dimensions and 5 % in weight and volume cannot be excluded.

Samsonite reserves the right to amend the specifications, colours, dimensions and weight of any product without prior warning. Colour deviation may occur due to the printing technique used.

Product Codes

All Samsonite product codes appear as follows: Prodigy Spinner 55:

74770 (C00N*001)

- MODEL CODE SPINNER 55
- PRODUCT LINE CODE PRODIGY
- MODEL CODE PRODIGY SPINNER 55

Quality

We deliver the quality. You conduct the test. Every journey. Every day. You might not have given it any thought, but each Samsonite product undergoes the most stringent controls and tests before it goes on the market. Of course, the ultimate test is conducted by you, the customer.

TUMBLE TEST | HANDLE TEST | DROP TEST | WHEEL TEST | ZIPPER TEST | LOCKS TEST

HISTORY

Milestones

Ever since its earliest days, Samsonite has been the most innovative luggage manufacturer in the world. It has led the industry in using new materials and creating new designs. Here are just a few of the luggage landmarks that Samsonite has created over the years, as part of its tradition of innovation.

1910

The Wooden Trunk
Jesse Shwayder, the company's original founder, redesigns the basic wooden trunk with shiny metal studs and corner-pieces making it more eye-catching and "strong enough to stand on."

1941

Streamlite™
In an early use of a new cutting-edge technology, the Streamlite suitcase is clad in a lightweight lithographed paper to create a "rawhide" effect. Its tapered shape is destined to become a classic within the industry.

1958

Silhouette™
The most advanced luggage made up to that time, included a new modern shape with recessed hardware to protect it from the wear and tear of travel.

1962

Classic Attaché
The first ABS attaché case is created for a new generation of business men. This sleek case soon became emblematic for the early-60s Mad Men-style executive.

1998

Xylem™
Introduction of the first Samsonite suitcase in aluminium. Its matching attaché would go on to play a key supporting role in the James Bond movie "The World Is Not Enough," where it was used to tote bundles of cash around Europe.

2004

Spinner®
Samsonite markets the four-wheel Spinner, which could be steered in any direction and toted right alongside the traveller. This innovation radically improved mobility and convenience for travellers as they navigated their way through modern airports.

2008

Cosmolite®
Samsonite launches Cosmolite as an aswer to the market's increasing demand for stronger and lighter suitcases. It was the lightest and strongest Samsonite case yet developed. Its sea shell inspired design became an instant success and the collection went on to win many design awards, including Red Dot Award "Best of the Best."

2015

Neopulse™
With the launch of Neopulse, Samsonite further strengthens its production capacity in Europe. The Made in Europe label, in combination with a strong design and competitive weight advantage are what made this collection an instant commercial success.

1969

Saturn™
As a response to the rising demand of lightweight luggage, Samsonite launches its first polypropylene suitcase with injection-moulded shells. The Saturn collection was the niftiest iteration of lightness and strength yet.

1974

Silhouette Blue
The introduction of wheels to the Silhouette frame transformed the luggage world for ever. The case was a true revolution in travel comfort and convenience, targetting a new generation of frequent flyers.

1986

Oyster™
Oyster was the first suitcase with a three-point locking system, providing ultimate strength and security. The case was an immediate triumph, with 140.000 bought in its first year, it was the fastest-selling case of all time.

1994

Ziplite™
With Ziplite, Samsonite introduced its first polypropylene suitcase with a zipper closure, thus combining both the benefits of hardside and softside luggage. Sales took off quickly and the market for hardside suitcases with zippers was born.

2018

Eco Collection
Worldwide, Samsonite launches 23 product lines that are made from recycled polypropylene or Recyclex™, a fabric made from 100% post-consumer recycled PET plastic bottles.

2019

S'Cure ECO Green Grey edition
The "Green Grey" edition of S'Cure ECO is the first suitcase on the planet repurposing post-consumer recycled plastic waste. The suitcase's shells are made using recycled Polypropylene from post-consumer household waste, turning a material too valuable to be thrown away into a high-quality functional product.

2020

110 ANNIVERSARY · SINCE 1910
Samsonite

110 Year Anniversary
Ready for the next chapter: we celebrate our 110 year anniversary with brand new novelty collections.
